Contents of Volume 23 (1989)

Vol. 23, No. 1, March 1989

J.J. Shields and W.C. Webster: Conservation of mechanical energy and circulation in the theory of inviscid fluid sheets 1

P. Glaister: Flux difference splitting for the Euler equations in generalised coordinates using a local parameterisation of the equation of state 17

Cheng Chang-Jun and A.J.M. Spencer: Non-axisymmetric instability of polar orthotropic annular plates 29

T.E. Brockett, M.-H. Kim and J.-H. Park: Limiting forms for surface singularity distributions when the field point is on the surface 53

T.G. Rogers: Squeezing flow of fibre-reinforced viscous fluids 81

NATO International Scientific Exchange Programme 1989 91

Vol. 23, No. 2, June 1989

R.W. Yeung and S.H. Sphaier: Wave-interference effects on a truncated cylinder in a channel 95

O.P. Chandna and P.V. Nguyen: Hodograph method in non-Newtonian MHD transverse fluid flows 119

J.M. Hill: Similarity solutions for nonlinear diffusion – a new integration procedure 141

P.R.J.M. Smits, P.H. van Lieshout and A.A.F. van de Ven: A variational approach to magnetoelastic buckling problems for systems of superconducting tori 157

P. Bassanini and A.R. Elcrat: Separated flow past three-dimensional bodies as a singular perturbation problem 187

Vol. 23, No. 3, September 1989

A.F. de O. Falcão and L.M.C. Ferro: Flow field due to a row of vortex and source lines spanning a conical annular duct 203

W.S. Vorus: The solution of Burgers' equation for sinusoidal excitation at the upstream boundary 219

P. Hall and M. Malik: The growth of Görtler vortices in compressible boundary layers 239

S.A. Thornham and J.A. King-Hele: An entry-flow problem for a non-isothermal catalytic-wall reactor 253

P.G. Bellamy-Knights, M.G. Benson, J.H. Gerrard and I. Gladwell: Analytical surface singularity distributions for flow about cylindrical bodies 261

J.H. Merkin: Free convection on a heated vertical plate: the solution for small Prandtl number 273

B.F. Gray and R.A. Thuraisingham: The cubic autocatalator: the influence of degenerate singularities in a closed system 283

Vol. 23, No. 4, December 1989

K. Kiriaki: Low-frequency expansions for a penetrable ellipsoidal scatterer in an elastic medium 295

S.P. Shen, M.C. Shen and S.M. Sun: A model equation for steady surface waves over a bump 315

L.K. Forbes: Two-layer critical flow over a semi-circular obstruction 325

J.H. Merkin and D.J. Needham: Propagating reaction–diffusion waves in a simple isothermal quadratic autocatalytic chemical system 343

H. Roozen: Stochastic stability of the loaded stiff rod 357

P.G. Daniels and M. Weinstein: Nonlinear stability of convective flow between heated vertical planes 377
